International Conference
The Draft Common Frame of Reference (DCFR):
a national and comparative perspective

Kortrijk, 10 & 11 June 2010

Aim of the conference

The DCFR is the result of more than 25 years of academic research on European private law. The final academic version of the DCFR was published in October 2009 and currently the European Commission is undertaking a selection process in order to determine which parts of the DCFR will be included in a 'political' CFR. Against this background, this conference will present and critically analyze the DCFR, and situate it in relation to current Belgian law.
